47 COIN

AROUND THE WORLD

General project idea →

The 47Coin - as its name indicates - refers to a new token designed to operate in at least 47 countries, where currency exchange restrictions will be minimized, thanks to the provided service of an automatic exchange system. This means that, if a citizen travels to one of these 47 countries, he/she will be exempted from exchanging money into the local currency. As a result, the ultimate goal of the 47 token is to freely allow the mobility of citizens within these 47 countries without any restriction or barrier.

One of the key benefits of cryptocurrencies, particularly 47coin, is the global accessibility. In fact, 47Coin allows individuals as well as businesses to safely send and receive payment with no time and space limitations. In addition, cryptos can be used with or without a bank account and less government restrictions and regulations in 47 countries. They are also accessible and can be traded by anyone and any time using investment-based platforms which do not require more than an Internet connection and a crypto-currency wallet to get started.

Who Are the Founders of 47Coin?

The 47Coin was created by a small young creative team, in different fields environment, technology, science and economy. They are united to contribute to the creation and development of an innovative idea, where they ended up agreeing on 47Coin cryptocurrency.

Pros and innovative → aspect of 47Coin

Thanks to the widespread cryptocurrency trend, companies tend to keep up with digital money methods, considering the benefits they have by being early adopters. Therefore, it has become easier now to pay safely with tokens in different online shops, hotels, restaurants and platforms rather than credit cards. The advantage of 47coin is to allow **easy** and **safe** online transactions, as well as to be used for local payment in at least **47 countries** with a **free exchange rate**. To this end, 47coin has as an objective to collaborate with companies legally using cryptocurrencies as a payment method

objectives of 47Coin cryptocurrency

1. Achieving a capitalization
of up to \$100 Million by 2022. →

The success and the rise of 47Coin will be dictated by the presence of devoted investors and particulars. That is why, this coin promises their users, fans and supporters to have the best experience ever with cryptocurrencies particularly within the ever changing global economy, offering them a long-term portfolio valuation. Therefore, the main strategy aims at reaching a capitalization of up to **\$100 Million** by the end of 2022, for this reason our marketing pole intends to target high portfolio investors, enabling 47coin to make a huge impact and thus being **among the first hundred crypto** currencies in the market.

objectives of 47Cion cryptocurrency

2. Listing on 5 exchanges by
the end of 2022 and 10
others between 2023-2025 →

In order to allow investors to be involved in short and long term, 47Coin will be **listed** in **three** cryptocurrency **platforms** namely WHITE BIT, PANCEKESWAP and XT. In almost **two years** (2023-2025), the objective will be to reach **10** most popular crypto **platforms** and apps such as BINANCE. The listing of 47Coin will be of interest to be ranked as one of the largest crypto token worldwide, with an important market cap fund.

objectives of 47Cion cryptocurrency

3. Monthly performance of
about 10% per month. →

The 47Coin is one of the top cryptocurrencies in terms of funding. The main pros behind its creation is to ensure a **win to win** situation for both users and owners, by considering a **monthly performance** of up to **10%**, this will guarantee the consistent growth of the coin. As a result, this will attract potential users and investors leading to the establishment and further growing community using the 47Coin, which consequently makes it an ideal means of exchange.

objectives of 47Coin cryptocurrency

4. Control against fraud →

The 47Coin, as a part of the blockchain network, offers users a **high** level of **protection** against the most common fraud types. Moreover, users can have complete control of their money as well as to backup or encrypt their wallets. And thanks to the coin integrated technology system, Hardware wallets are designed to be very difficult when it comes to stealing or losing money.

5. Tips and donations →

The 47coin plays a key role when it comes to donations, as it will provide an annual allowance to projects leading environmental issues to combat or at least to minimize the effect of pollution, global warming and climate change. It will contribute as well to support charity organizations involving in childhood particularly orphanages.

Environmental objectives

47Coin Trading Platform

The 47Coin has a trading platform, where the investor finds his main trading tools. These tools are generally organized around three main functionalities:

- Graphical interface which is an interface for placing orders and the Coin information flow.
- Our platform disposes of credit cards designed to make fast transactions using the available funds from our platform, and also transfers from a spot wallet to the payment wallet.
- The investors will benefit from the DeFi technology, that will be implemented in our trading platforms. Investors have the ability to provide liquidity by staking 47Coin to gain return and passive income.

How Many 47Coin Are There in Circulation?

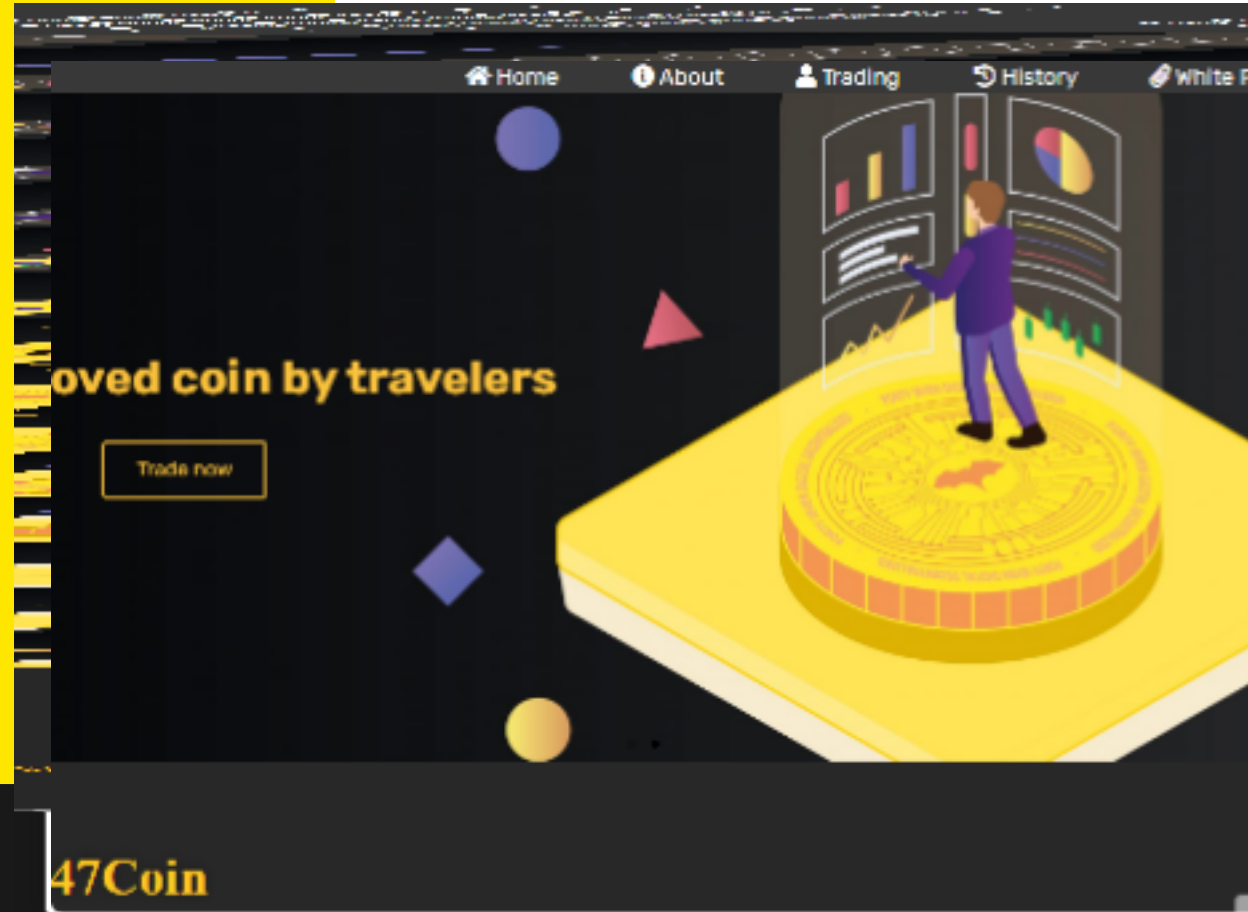

There is a maximum supply of 10000000000000000000 coin, where 50% of total supply goes to the project's founders and team, the other 50% will be spent among investors for long and short term. The main goal then is to decrease the total supply from 6 to 10% each 6 months.
